

# ANATOMY OF A TROPHY

## figure/cup

the cherry on top of a great trophy build, a decorative cup or figure, sometimes both, often hard plastic with metallic finish

## trim

addition that can celebrate the year, purpose of the award, or other decorative element

## column

colorful tube, generally round or oval, that often comes in 48" lengths and is cut to size

## base

the bottom part of the trophy, often marble. Sometimes used as a riser

## TROPHY SIZES

### figure on base

this is a small award that usually includes just the base and a figure, removing the columns and trim

### single tier trophy

an award often consisting of a base, single column, top piece and figure/cup

### two tier trophy

the next level up from single tier, often consisting of a base, two columns, a riser, and then either another single column or a top piece and figure/cup (can include a trim piece if requested)

### three tier trophy

even more to love is the three tier trophy. This trophy consists of the two-tier trophy sat atop an additional base, two or more columns, and one more riser.
